Key Scriptures & Notes

What am I going to do?

What am I going to do?

Discipleship Essentials #4: Reading Study Guide

1. Read through "Inductive Bible Study" (the reading from Session #4 in *Discipleship Essentials*).
2. What is the inductive method?
3. Why is it considered a scientific method?
4. What is the difference between observation, interpretation, and application?
5. This method can be greatly simplified for daily use. What do you notice from this study method that could be helpful in getting the most from a passage of Scripture?
6. Practice this method by creating your own three-column guide on Luke 11:5-13. Review the instructions to see the items that you will want to draw from the text. Share your findings. What issues did this raise for you?
7. SO WHAT? Why is it important to study the Bible inductively? Why is personal Bible study necessary if you are attending a group Bible study?
